Cancer Stem Cells & Metastasis Lab

STEM-MET
Research Laboratory

4-year Lab technician position

Breast cancer metastasis; Preclinical models; Immunotherapy, Cell Plasticity; Phenotypic Heterogeneity

A **4-year Technician position** is available to start in May 2022, at the *Cancer Stem Cells & Metastasis Dynamics Lab*.

Candidates should have:

- Technician degree in Biomedical Laboratory Research
- Advanced experience in animal mouse handling and mouse colonies
- Experience in tissue processing, histology, immunofluorescence
- Experience in cell culture and Molecular Biology techniques

Candidates may also have:

- Continuous learning motivation
- Experience in lab management
- Experience in microscopy techniques

To apply: please send your **CV** and **motivation letter** with the main reason to join the lab to acelia@imim.es. **Deadline application:** March 31st.

The Lab: our lab is focused on cell plasticity heterogeneity in **breast cancer metastasis and immunotherapy research** – from the basic/fundamental research to translational discoveries.
