

Interested in cancer immunity and immunotherapy? Passionate about microscopy?

We are opening a three-year funded PhD position in the lab of translational immunotherapy in CIMA, Universidad de Navarra starting in Dec-Jan.

We are looking for highly motivated candidates with solid immunology background to join projects related to myeloid cells in cancer immunotherapy.

Candidates please send CV and academic records to Alvaro Teijeira [ateijeiras@unav.es](mailto:ateijeiras@unav.es) and Esther Guirado [eguirado@unav.es](mailto:eguirado@unav.es) .
