# ASEICA-INTERNATIONAL

**ASEICA-INTERNATIONAL** aims to promote career development and to give visibility to scientists in cancer in and beyond our borders. Our main objective is to generate active networks of scientists to attract and support talent

## WHAT WE AIM TO ACHIEVE:

**Foster the exchange** of knowledge among Spanish researchers and those abroad

**Create networks** of contact and support for Spanish researchers working internationally

**Increase** the visibility of ASEICA and its programs on a global scale

**Facilitate** the integration of foreign researchers arriving in Spain through support networks and welcome guides

**aseica**  
INTERNATIONAL

## WHAT WE CAN OFFER:

- ▶ **Networking and Collaboration:** We are developing databases to facilitate connections among researchers in and outside Spain, and mobility programs for stays abroad. Also, databases for experimental tools
- ▶ **Professional and Personal Support:** We are expanding mentoring programmes to help in the international training and visibility of researchers at any stage of their career. Mentors are also available to providing support for international grant applications
- ▶ **Career Development:** Thematic seminars, workshops and training programs to strengthening scientific and soft skills at a global level

## IF YOU ARE:

- ▶ Spanish researchers who wish to develop your career abroad
- ▶ Spanish researchers who are already working in a different country
- ▶ Foreign researchers coming to Spain
