Epitranscriptomics & Cancer Lab

🔬 Postdoctoral Opportunity

We are looking for a motivated researcher to join our **Epitranscriptomics and Cancer Lab at the Cancer Research Centre (CIC), Salamanca, Spain**.

🧬 Research focus

Our research focuses on understanding the role of **epitranscriptomics in cancer development and progression**, with the ultimate goal of identifying **novel therapeutic targets and biomarkers**. Learn more here: https://blancolab.csic.es/

Our lab combines:

- 🧬 RNA biology & epitranscriptomics
- 👄 Cancer biology & immunology
- 🐭 Mouse models & clinical samples
- 💻 Multi-omics technologies & Bioinformatics

👩‍🔬 Candidate profile

- A recent PhD in Biomedicine or a related discipline
- At least one **first-author publication** in a peer-reviewed journal with a medium impact factor
- Strong motivation to develop an independent research career

🚀 What we offer

- **1–3 year postdoctoral contract**, depending on funding
- Access to cutting-edge research facilities and technologies
- Support in applying for competitive postdoctoral fellowships, including:
  - 🔷 AECC Postdoctoral Fellowship – expected call opening in October 2026
  - 🔷 Juan de la Cierva – expected call opening in November 2026
  - 🔷 EMBO Postdoctoral Fellowships and Marie Skłodowska-Curie Actions

📩 **Interested?** Please send your **CV** to Sandra.blanco@usal.es

📣 **Please share this post with colleagues or researchers who may be interested.**
